Tessa lays herself bare !

By Sally Sedwick

Tessa lays herself bare! Very moving account of working with world's best musicians. Side-splitting at regular intervals, tears as well. A great insight into the person behind the great voices. A highly accomplished page turner.

One of the voices behind pop's biggest stars

By Stephen in CH

Tessa Niles is one of the most-heard singers in the history of pop music but her name isn't particularly well known. As a backing singer, she has worked with the leading pop and rock artists of her generation both in the studio and at many of the defining concert performances in the history of contemporary pop (consider Live Aid and Eric Clapton's "Unplugged" sessions).

Her memoir reads wonderfully and gives lots of insights into the unique world of the backup singer. The great ones (and Tessa has worked with almost all of them) aren't necessarily looking for stardom but focus instead on serving the song and the lead singer. She has stories about the artists she has performed with - David Bowie, Sting, Eric Clapton, George Harrison, Tina Turner and more - but her honest descriptions of the challenges of maintaining family stability and a balance between her professional and private lives are among the most interesting parts of this well written book.

Great book from one of the best backing vocalists in ...

By Alexandr Britikov

Great book from one of the best backing vocalists in british music scene of 80s and 90s. If you want clever and honest look inside the world of show business, this book is for you. Tessa gives you a good mix of her own private life and work life. She finds kind words for every artist she worked with and she worked with a lot of them! So, if you expecting some "yellow press" histories, scandals etc. you won't find it here. And it's really great in my opinion, because instead some cheap crap you will receive a lot of interesting stories from touring and recording and you will understand better what are bright and dark sides of working as professional artist.

For me it was always interesting why Tessa never really tried to make solo career. She had great voice, singing versatility, she was beautiful at least. This book will give you answer. Tessa is some kind of "team player" in sport terms, she hasn't big ego, like most well known music stars and she really enjoys backing solo artists more than making her own stuff.
