The Source of Target Earth

By Ralph Vaughan

This short story served as the basis for the classic science fiction film "Target Earth," which should make any fan of the film eager to read it. Aside from that, however, it's a darn good story. The situation of a disparate group of people alone in a mysteriously deserted city is handled identically in story and film, as are the personality types, though the story naturally goes more into depth. Where story and film diverge is in the treatment of the alien invaders. Whereas the film puts them center stage and makes them menacing and dangerous, the story treats them almost as an afterthought. That's because the story is not about the invasion but the establishment of relationships in the midst of a disintegrating society, while an invasion (with killer robots) is the only reason to buy a ticket to the film. Both story and film are excellent, and both are worth your time.

Exciting Story Made Into Feature Film

By lovetoread

As I was reading this classic sci-fi story I kept thinking, "wow this would make a great movie." Imagine my surprise when I looked up the author and found out Hollywood agreed with me! Late 50's film called Target Earth is based on this story.

Imagine waking up to a deserted city, no signs of life, staring windows being the only eyes you see. This is the experience of 5 very different people. Read to find out why and if anyone is left standing at the end. Tightly written with well drawn characters. The story doesn't really date itself, so you aren't jolted out while reading. My only complaint is that Hollywood hasn't updated this classic tale. Quick, fun read. Highly

recommend.
