Fine for the price.

By Jewel

This is a Good Bible for the price. This Bible is made to lay open and flat, which is nice. The print is nice, big and clear. Not as dark of print as some more expensive large print Bibles, but perfectly fine. As with most Bibles, you will be able to see the print from the other side of the page, but it is not that obvious. The thumb tabs are helpful, but the pages where the tabs do stick to the next pages and need to be gently loosened. I think this has to do with how the page were cut so you can see and read the tabs. What needs to be improved is the placement of the book names. They are not on the page corners like most Bibles. So, as you're flipping through, you don't see the book names. The book names are centered instead. There is a list of Bible books in the beginning and a yearly reading plan, and a "verse finder" in the back. The verse finder is topical, but not like what you would think. It is more for inspiration and not for looking up specific verses by a word search. Meaning, if you want to look at a few versions to inspire you when "you are feeling..." or "what the Bible says about...", then the verse finder will list several verses to look up on basic topics. Those expecting a true concordance will be disappointed in this shortcut. I have Bibles that are no thicker that have a true, if condensed, concordance. I see very little use in it as I have a verse finder book that is more helpful. There are basic chapter headings. There are no notes, which was expected. The margins are narrow so not much room for writing, but again that was expected. The lines have sufficient margins for comfortable reading. As another review noted, there is no page to write your name. The cover is of excellent quality and the material itself is probably the best feature of this Bible. The cover is glued on to the Bible. The pages are glue bound. Time will tell how they will last. The packaging, by the way, is clear plastic - no gift box. There is a removable, thick paper wrap on the back cover that lists the features of the Bible. There is no mention of the cover material being made in Italy in the Bible itself. It is, however printed in China, a country that has a terrible history of abusing Christians. A decent Bible for the money.

The Perfect Bible

By Casan

What a beautiful Bible! It opens easily and lays flat. The print is easy to read, and has a thumb index. A real time saver. The cover is beautifully engraved and looks expensive. Its the KJV which, for me, makes me feel right there. The words of Jesus are NOT in red. This is a plus, since words in red are tough to read in poor light.

Good Bible

Good company to work with (Veritas Gifts). They replaced my Bible without hesitation because of a defect in the binding

All in all, a decent Bible for reading and serves my purposes fine.
