Just buy it already...

By JustAFilmGuy

Okay, so it's a beginners guide. But at the really low price for over two hundred pages, I think this is a great bargain for it's convenience, step by step instructions, examples and helpful hints from the author. Having a book to scan is a lot faster and more convenient than the JIRA help screens, and I'm in a hurry to get the info I need and just move on.

Excellent book for beginners using Jira

By Alan DeFelice

Excellent book for beginners using Jira. I had to set up and configure JIRA out of the box for use on our project and it was very helpful at doing so properly.

If you're already a JIRA user on any level, ...

By Ben Collins

If you're already a JIRA user on any level, the first half of this book is VERY basic. Look to a more advanced book.
