This comprehensive introduction to art and design explores making artifacts as a process of making meaning. Making Art: Form and Meaning offers a framework for understanding how all the aspects of an artwork--subject matter, medium, form, process, and contexts--interact. The text's wide array of examples and its emphasis on late-modernism and postmodern art give students a thorough look at the expressive possibilities of traditional design elements and principles and contemporary practices, including the use of computer-based, time-based, and lens-based media.

With artist quotes, clearly defined key terms, and a chapter dedicated to studio critiques, Making Art allows students to join the conversation of contemporary art and gives them a jump start in thinking and talking about their work using the language and concepts of today's art world.

This book along with other Berret's book titled 'Why is that Art?' is a comprehensive introduction to art and design student. Simply to clarifying the mind for studying art/design by categorizing the elements of art making and meaning into : Subject Matter (content), Form, Context and Medium. It would be fruitful for student alike who willing to learn about writing his own artist statement on a more scholarly-based. =)
