More Fables, which may have been the inspiration for Thurber's "Fables for Our Times", was written at the turn of the last century. It pokes good natured fun of the foibles of people back then, and paints a colorful picture of everyday life in a time usually skipped over by the standard history texts used in high school and college. I enjoyed the book as much for historical reasons as for the humor. The fables use the slang spoken then, at least as perceived by the author, and have caused a few reviewers to complain that they are too hard to read. This is at least in part an indictment of liberal arts in academia today, where nothing written before 1960, except Shakespeare, sees the light of day unless it passes the ideological filters of the leftist bigots who predominate there.
