Required reading for anyone interested in the debates on prostitution

By Maureen Master

Rachel Moran has written not just a moving memoir, but also a powerful critique of the sex industry, and the callous notion that prostituted persons consent to their abuse. She aptly demonstrates how those who benefit from prostitution (pimps and johns --- or prostitutes, as she calls them) prey upon the least powerful and the most marginalized, profiting from their desperation, poverty, youth and prior experience of abuse to reap profits for, and satisfy the desires of, those who are positions of power over the prostituted. Anyone who believes prostitution is a consensual act between equal parties needs to read this book. Some truly horrible policies are being promoted right now that seek to legalize and normalize the abuse of prostitution (in the name of human rights, no less!) If you're interested in sound policies on prostitution, listen to survivors and

read this book.

VERY BRAVE

By Jennifer B Bilek

This is a must read for all those third wave feminists getting the idea that getting paid for sex is in some way empowering. This is a heart wrenching and believable account of what the real costs are to being a sexual commodity. It is not up-in-your-face but quietly harrowing as I imagine the actual experience of being a prostitute is. It is honest and so brave. This is a necessary book for young women today who are getting the message (in mainstream media no less) that being paid for sex is glamorous, high-paying and a choice. This book will give you a birds-eye view of the reality and the pain inherent in selling your body. I applaud the author.

Shocking but inspiring

By David Gordon

This is a deeply personal and moving account of a woman who was forced into prostitution at a very early age, but survived to tell the tale. Rachel Moran's memoir is a simultaneously heartbreaking and uplifting story that will both shock and inspire many readers. This book reveals the appalling and demoralising conditions that many prostitutes are forced to endure, and the quiet despair that many of them experience. 'Paid for' is a passionate and thought-provoking account of the oldest profession in the world, and will surely generate considerable debate about the future of this sordid industry. This book is absolutely essential reading for anybody interested in basic human rights and dignity.
