Wealth of Information

By Sean Cauffiel

I'm still in the middle of this book. Some of it is a little silly, and I gleam over those parts in a rush. They are relatively few and far in between, and the wealth of useful knowledge and insight throughout the rest of the book is worth it. I am beginning to apply many of the principles for the first time... its not a magic formula, but it has initiated noticeable progress where before I was stagnating for some time. Its small and easy to carry around to read when you only have one or two minutes available.

The only strange thing about this edition is that authorship is credited to Napoleon Hill, but much of the book speaks of Hill in third person, as if the revising author (who I think is W. Clement Stone) takes liberty to speak on behalf of the original author.

Game Changer.. One of the most influential books on self development that started my journey many moons ago.

By jason sani

Don't judge the book by it's cover or title. Awesome book that gives actionable steps to transfer our powerful

emotions to work towards our burning desires.
