Susan Kolb a medical doctor who is uniquely qualified to tell this story because she has a specialty in plastic and reconstructive surgery, as well as extensive training in holistic medicine. Furthermore, both silicone and saline breast implants have been in her body, and she confronted the health challenges such prosthetic devices can produce. While her story is very personal, it also reflects the experience of hundreds of thousands of other women. The story she tells involves multinational corporations, public health concerns and governmental organizations that have betrayed the very people they are charged with protecting. Suppressed research, legal battles, government hearings, political corruption and corporate greed are part of this saga. Yet it is also about healing, for it contains the promise that those involved will learn greater responsibility. As Dr. Kolb says, "Sometimes we all have to learn the hard way."

excellent read

By S. Williams

This book was very informative. I had just recently learned that I was sick from my implants and found a support group that recommended this book. I loved the stories told by her actual patients and could very much relate them to my own illness. If you have implants, or want implants, this book will OPEN your eyes to many things. Outstanding and timely

By msglenn

This book is written by THE authority on the subject and a must read for (IMHO) any woman with or considering breast implants. If I had known the truth years ago, I would have saved myself and family a great deal of heartache. I was fortunate enough to be treated by Dr. Kolb when I became very ill. When I began reading the book, I couldn't stop until I was finished. And then I couldn't stop talking about it. Her writing is intriguing, comprehensive and motivating. I marvel at her depth as a scientist, a surgeon, and most importantly a compassionate voice and caring healer for the women that need her.

Saved My Life

By Ginger Rhodes

I had heard mixed opinions about the safety of silicone breast implants and wasn't sure who I could believe. It seemed that all the sources that I had asked said that they were completely safe and had absolutely no correlation with auto-immune disease. However, after being sick for years with no known cause for my sudden decline in health, I began to take matters into my own hands and stop taking their word for it. I happened to stumble upon Dr Kolb's book on amazon. After reading her book in one sitting, I knew my answer. I read story after story of women's accounts that were nearly identical to mine. I knew then and there what I must do--have my implants removed asap!! Sure enough, upon examination, we discovered that both implants had been leaking toxic chemicals into my body and had leaked into my lymph nodes. Dr. Kolb removed my implants en bloc and the lymph nodes with confirmed silicone toxicity. I'm regaining my health slowly and am so grateful for the gift of life and health. I give credit to God for hearing my prayers and allowing me a second chance at life. If you find yourself in a similar situation wondering if your implants could be the cause of your sickness, I highly recommend this book and either Dr Kolb or Dr Feng for having an explanation.
