The world of Arkaria is a dangerous place, filled with dragons, titans, goblins and other dangers. Those who live in this world are faced with two choices: live an ordinary life or become an adventurer and seek the extraordinary.

When their allied settlement in Emerald Fields is attacked by the mighty titans, the guild of Sanctuary is drawn into a centuries-old conflict between the races of Southern Arkaria, a conflict that threatens to spill north into the war-ravaged lands of men and elves...and one which place Sanctuary into conflict with the oldest and most dangerous force on Arkaria...the legendary dragons.

Fabulous

By Jo for A British Bookworm's Blog

Where to start? Just when you think that Crane might have dropped all the bombshells he is going to; just when you think Sanctuary has dealt with the worst enemy imaginable; just when you think Cyrus has lost enough, we get ... Warlord. And all bets are off.

But for all the battles, the dragons, the titans and Vaste, Cyrus' personal struggle is what comes to the fore in this book - more so than the other volumes. His turmoil is described with as much skill as the many battles which take place.

Be warned - this book may bring a tear or two (or more) to your eyes. It did for me. He gets more like George R R Martin with every book ...

I received a copy in exchange for an honest review

Great series

By C. Torlincasi

I love the series, but I HATE that I got sucked into it before the end was written. I find myself worrying about the authors safety! What if something happens to Robert, and we never get to find out the end? Its especially concerning to me with the cliff hanger this book ended on. Mr Crane, please drive safely, wear your seatbelt, and no high risk activities until you finish books 7 and 8. Matter of fact, I am sure I'm not the only reader who would prefer if you wore a DOT approved helmet at all times, to protect that brain of yours until July. After that, you may go skydiving or cross the street without looking as often as you like.

Worth the wait but can't wait for more!

By Larry C

Just prior to buying this book, I reread the first five main books of The Sanctuary Series. This was fortuitous because after reading book 5, I checked Amazon to be delightfully surprised to see this volume had been published. I purchased this and dove in ... deeply! Delightfully, Crane doesn't disappoint. As good as the previous books in the series are, this one is better and, happily, rather long.

The focus here is on Cyrus and the struggles he goes through as the Guildmaster of Sanctuary and the partner of the elf, Vara. The thoughtful introspection is just as well done as the many battles depicted. There are some incredible insights here and a tremendous bombshell dropped at the end.

#### SPOILER

We lose some long-time friends here, unfortunately. But that's to be expected in this bloody and long struggle against the evils molesting Arkaria, anything less would be stretching believability. We also see a perhaps ally in this struggle. We also discover some powers that the main characters were unaware they had.

All in all this book is just plain fantastic. Robert J. Crane continues to grow his art and the feeling here is that his craft is a great deal like G.R.R. Martin or Robert Jordan. Look forward to the final two books of the series.
