Life Changing Book...

By James Lee

I love yoga because not only is it a workout for my whole body, but also my breathing, which helps release a lot of stress. Yoga reduced all my bodily tension. It allows me to bring my body back into balance. It really prepares me for each day. The yoga in this book has trimmed my body in a way that the gym never could. I have had moments with health issues and I've felt like yoga, meditating and reading this book actually really helped. Yoga did not just help me with my body, I became fitter from within. It helped me to focus a lot better. Yoga is not just only for women, but also for men. This book is a big help to everyone. It has truly changed my life and I'm sure it will help you too!

super bendy, pretzel-like poses your girlfriend practices each morning

By John Snowy

When you've never tried yoga, it can be intimidating, especially if you've been scoping the jaw-dropping, super bendy, pretzel-like poses your girlfriend practices each morning. This book offered a no-frills, all-body workout that could be incorporated into a workout routine. I was looking for new poses, so I gave this book a try. The book turned out to be very helpful. There were many postures I had never tried before, such as Squat Hold or Cat-Cow. For the ones I did know, this book provided greater detail which helped me gain greater understanding of how to move my body. The sequencing section provides ready-made sequences for quick use.

Although billed as a book for yoga practitioners of all ages, I believe this book would work best for someone (man or woman) who has already done some yoga, but wants to a tougher workout. The poses and sequences are strenuous enough to compete with any other kind of workout you can do.

Karim does it, I'd better do it too!

By Angelo Gravi

I didn't know Karim Abdul Jabbar was a yoga fun!!! For me this guy was always a legend and I'll take his word! I personally think yoga makes your bones, muscles more durable over time that's why this guy managed to play 20 NBA seasons! Other don't even make 5! I had watched a few youtube videos with some poses but this books is short and concise, puts everything into the right place. The pictures are of good quality and that's helpful to understand the poses. I really enjoyed it. It just convinced me that I should be consistent with my yoga. It's definitely worth it! Thanks a lot for great advice, Angelo.
